CEMVS-CO-N	

SPECIAL NOTICE TO NAVIGATION

LOCK AND DAM NO. 24, Upper Mississippi River Mile 273.5

1. The St. Louis District is currently administering a major rehabilitation contract for the refacing of the concrete lock walls at Lock and Dam No. 24, Clarksville, Missouri.
2. The third and final winter lock closure for the major rehabilitation contract will be as follows:

Start of Closure

Time: 0600

Date: 15 December 2003

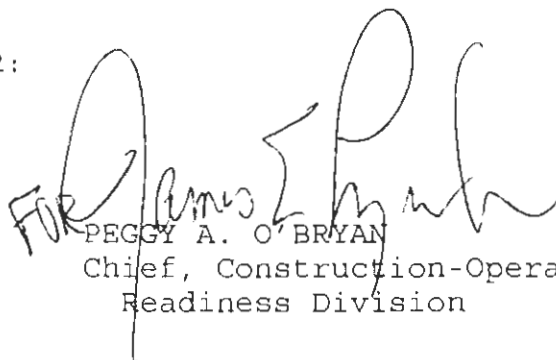

End of Closure

Time: 0600

Date: 90 days after start date of closure

3. There will be a limited number of daylight 8-hour duration lock closures at other times when the contractor is performing blasting and diving operations. These may be implemented through-out the duration of the contract. Notification of these short closures will be provided to industry as early as possible. During the short 8-hour duration closures, tows will not be allowed to tie to the guidewalls.
4. The construction contractor will have access and usage of the riverside area of the I-wall for the entire duration of the contract. All tows are restricted from using this area during the construction contract.
5. All navigation interests should be alert for, and abide by, any special instructions that may be issued by the Lockmasters in conjunction with these closures.

FOR THE DISTRICT ENGINEER:

PEGGY A. O'BRYAN
Chief, Construction-Operations
Readiness Division
